ITEM 1- Land Use and Development Code – Discussion – proposed amendment regarding the Village Expansion District.

INDEX OF PACKET ENCLOSURES	
DESCRIPTION	PAGE NUMBER
1. Overview	2-3
2. Proposed Amendment (with Draft Motion)	3-6
3. PLBD Comp Plan Implementation Committee Workshop Notes	6-7

AMENDMENT TRACKING

DESCRIPTION	COMMENTS	STATUS
Town Council Meeting	The Town Council forwarded the item to the Planning Board for a public hearing and recommendations. (7 ayes)	March 2, 2021
Planning Board Meeting Discussion	The item was forward to the Planning Board’s Comprehensive Plan Implementation Committee, CPIC, 7 yeas.	April 5, 2021
PLBD CPIC Workshop	The committee did not have time to take up the item.	May 3, 2021
PLBD CPIC Workshop	The committee was going to review the proposed new zoning district and provide any recommended changes to staff. No edits have been proposed by any committee member.	June 7, 2021
PLBD CPIC Workshop	The committee requested the following information: formula to calculate financial hardship for the road network, bigger maps with road names, current and proposed standards, as well as subdivision size.	August 2, 2021
PLBD CPIC Workshop	The committee wanted to add a requirement that dead end roads are required to be a cul-de-sac design, look at adding a fee if the Planning Board allowed only one point of access into a development,	September 13, 2021
PLBD CPIC Workshop	The committee discussed the hardship criteria for providing points of connection and requested staff bring a per a per foot costs for street/private way construction.	October 4, 2021
PLBD CPIC Workshop	The committee made some proposed changes to financial hardship criteria and forward the item for Public Hearing by the PLBD.	November 1, 2021
Planning Board Meeting Public Hearing	The Planning Board discussed and had concerns about the language and in particular about whether to use “add” when voting on the 2 points of connection waiver. Sent it back to committee for further discussion.	December 6, 2021
PLBD CPIC Workshop		December 20, 2021

The Planning Board refers to staff notes during the review process; however, it shall be noted that staff recommendations are noncommittal and all final decisions are those of the Planning Board and not Town Staff.

Memo completed by Thomas Poirier, Director of Community Development.

1. Overview

At the Planning Board’s public hearing on December 6th, 2021 the PLBD had a conversation regarding granting a waiver for 2 points of connection and should both requirements need to be met or just one in order to grant approval. To help the committee staff discussed with the Town Attorney and if the PLBD wants both requirements met then use: “**and**”, if the PLBD wants only one requirement met then use: “**or**”. The Town Attorney says that you can’t use both. Staff has colored the words in the proposed amendment language in the text below in either **red** or **blue**. The committee should discuss which word they prefer and the other word would be ~~struck through~~.

Below language shown in italics is information provided to the Planning Board as part of past staff notes.

The committee is recommending changes to the ordinance about 2 points of connection for public roads and private ways, as well as detailing a waiver provision from the requirement of 2 points of connection. The committee’s proposed changes are shown in black and underlined.

Staff requested that the Town Attorney review the proposed draft language proposed by the Planning Board committee. The Town Attorney’s proposed changes are shown in black, bolded, underlined, and struck through.

The Planning Board will also need to recommend adoption of the attached draft zoning map with the addition of the 1st section of Gorham to be rezoned to Urban Residential Expansion District. The proposed area being rezoned is the first of 4 areas. The Town Council set up the rezoning into 4 distinct sections to better manage the public process for rezoning. The first section to be rezoned is the area near Little Falls Village.

The Town Council has forwarded to the Planning Board a request to review the Village Expansion Area per the Town’s 2016 Comprehensive Plan and make a recommendation back to the Town Council. Below is excerpt information from the Town’s adopted Comprehensive Plan regarding the Village Expansion Area which outlines density, uses, and standards.

- ***Village Expansion Area***

- ***Location*** – *The Village Expansion Area includes the area on the fringe of Little Falls Village and extending along the Gray Road corridor toward Gorham Village. It also includes an area to the south of Gorham Village extending from the village bypass to the New Portland Road area. Most of this area is currently included in the Development Transfer Overlay District.*

- ***Allowed Uses*** – *The allowed uses in the Village Expansion Area should include the same general types of uses allowed in the Village Residential Area. This includes a range of residential uses (single-family, two-family, and multi-family), accessory apartments, retirement housing and elderly-care facilities, municipal and community uses, institutional uses, and bed and breakfast establishments.*

- ***Development Standards*** – *The development standards in the Village Expansion Area should allow for moderate-density residential development as well as higher density-residential development through the use of the development transfer provisions. The base density for residential development should be set at two units per net acre with public sewerage and one unit per net acre with on-site sewage disposal. The standards should allow a density of up to*

Land Use and Development Code Amendment: Village Expansion District

eight units per net acre with development transfer provided that the development uses public sewerage. In addition, the variable density provisions for small units should apply (see Section C.7. Small Dwelling Units).

The base minimum lot size requirements should be 20,000 SF with public sewerage and 40,000 SF with on-site sewage disposal. The minimum lot size with development transfer can be reduced to 6,000 SF. The base minimum lot frontage requirement should be 100 feet with public sewerage and 150 feet with on-site disposal. If development transfer is utilized, the minimum lot frontage should be reduced to 60 feet.

In addition to the space and bulk standards, developments utilizing development transfer should be required to meet additional design standards to assure that the overall development and individual homes are designed with a “village character”.

The proposed creation of the Village Expansion area is a rather large rezone encompassing about 800 +/- parcels in 2 areas: the area around Gorham Little Falls and the area around South Street near the Gorham By-pass and the CMP electrical transmission corridor. See the map below with four different colors showing the area to be rezoned.

To keep the public process manageable for the proposed rezone due to the large number of parcels being converted to the new district, Town staff recommended and the Town Council has agreed that the proposed rezone be completed in 4 sections. Section 1 – Area to the North and West of Gorham Little Falls (blue), Section 2 – Area to the East of South Street toward New Portland Road (orange), Section 3 – The area South of the Little River (green), and Section 4 – The area to the West of South Street toward the By-pass (brown).

Below is a draft zoning district staff put together to meet the comprehensive vision as outlined in the Comprehensive Plan. Staff is recommending a slight change in title from Village Expansion District to the Urban Residential Expansion District. This type of change is allowed under State rules for Comprehensive Plan implementation as long as the overall location, allowed uses, and development standards conform to the Future Land Use Plan.

Proposed Amendment:

CHAPTER 1: ZONING REGULATIONS

SECTION 1-24 – URBAN RESIDENTIAL EXPANSION DISTRICT

A. PURPOSE

To expand and add to the physical, aesthetic and social quality of Gorham's urban area, consistent with the Comprehensive Plan's goals of providing a location for a variety of residential and service uses in accordance with the standards of this chapter. To this end, residential development shall not exceed the net residential density allowable herein and may preferably occur in accordance with the provisions of Chapter 1, Section 1-18, of this Code.

B. PERMITTED USES

- 1) One or two-family dwellings, exclusive of mobile homes and exclusive of trailers.
- 2) Nursing home, home for the aged.

Land Use and Development Code Amendment: Village Expansion District

- 3) Municipal building or use.
- 4) Municipally owned parks and playgrounds.
- 5) Accessory residential uses, including home occupations.
- 6) Manufactured housing units on single-family residential lots.
- 7) Rooming house, apartment building or multifamily housing, except fraternity housing.
- 8) Public utility facilities including substations, pumping stations and sewage treatment facilities.
- 9) School, hospital, church, or any other institution of educational, religious, philanthropic, fraternal organization, or social nature which is not used for residential or commercial purposes, which has less than two thousand (2,000) square feet of floor area and generates less than two hundred (200) vehicle trips during any twenty-four hour period, except fraternity houses.
- 10) Accessory Apartments
- 11) Bed and Breakfast Establishments

C. SPECIAL EXCEPTIONS

- 1) School, hospital, church or any other institution of education, religious, philanthropic, fraternal organization or social nature which is not used for residential purposes and has two thousand (2,000) or more square feet of floor area or generates two hundred (200) or more vehicle trips during any twenty-four hour period.
- 2) Bed and Breakfast Establishment with public dining as an accessory use.

D. SPACE STANDARDS

	<u>Sewered</u>	<u>Unsewered</u>
Minimum lot size for residential lots which are not a part of a subdivision	20,000 sq.ft.	40,000 sq.ft.
Minimum lot area per dwelling unit for a Subdivision, or multi- family housing*	20,000 sq.ft.	40,000 sq.ft.
Minimum street frontage	100 ft.	150 ft.
Minimum front yard	25 ft.	25 ft.
Minimum rear and side yards	15 ft.	15 ft.

Land Use and Development Code Amendment: Village Expansion District

- * The net residential density identified under Section 1-5 Definitions shall be used to calculate the maximum number of dwelling units that can be placed on a parcel. Each lot in a subdivision shall have the minimum area per dwelling unit for the number of dwelling units proposed to be on a given lot.

Maximum building height	None	None
Maximum building coverage	25%	25%

Notwithstanding the provisions of this subsection D, an auxiliary public utility structure is exempt from the minimum lot size, building coverage, and street frontage requirements of this district. Structures must meet setback requirements. Additional screening and buffering can be requested by the Planning Board.

E. PERFORMANCE STANDARDS

- 1) The performance standards contained in Chapter 2 of this Code shall be fully observed.
- 2) Non-residential developments and uses shall be developed to meet the following requirements:
 - a. All non-residential uses shall be served by underground utilities.
 - b. All principal buildings and structures for non-residential purposes shall be of a traditional New England Village design to be compatible with the predominant scale and character of the existing Gorham Village architecture.
- 3) Residential developments shall be developed to meet the following requirements:
 - a. All residential uses shall be served by underground utilities.
 - b. Layout of a road network shall be completed in a grid style to ensure **two (2) points of connection ~~on for each~~ roads**. The Planning Board may waive the **requirement for two (2) points of connection** for a portion of the development if the Planning Board finds that no other alternate road network is possible with 2 points of connection **due to the configuration of the parcel(s) and/or** it would be a financial hardship to **complete the required two (2) points of make the 2nd road** connection. **For purposes of this section, a financial hardship shall be considered to exist if establishing the two (2) points of connection would utilize more than twenty-five (25) percent of the cost of the entire development. The Planning Board may waive the 2 points of connection for a portion of development if the Planning Board finds no other alternate road network is possible with 2 points of connection and it would be a financial hardship to complete 2 points of connection. The financial hardship shall mean the 2 points of connection would utilize more than 25 percent of the cost for the entire development.**

The number of dwelling units used in the calculation shall be based on the maximum number of dwelling units allowed on the parcel as identified under the Urban Residential Expansion Space standards. The request for waiver shall include two (2) plans. One plan shall show a street/private way layout having two (2) points of connection, and the other plan shall show a street/private way layout with a dead end street/private way. The road layouts shown on both plans ~~shall must eet the be approved al of by~~ the Planning

Board.

Should If the Planning Board grants a waiver **of the requirement** for ~~the two (2)~~ points of connection **requirement** for dead end streets or private ways providing access to more than 4 lots and/or dwelling units, the street or private way shall be of a cul-de-sac design meeting all the relevant requirements under Chapter 2, Section 2-5 Minimum Standards for the Design and Construction of Streets and Ways.

~~One lot/dwelling unit~~ Private ways **servicing a single lot and a single dwelling unit** are exempt from the requirement for 2 points of connection.

- c. Principal single-family, two-family, and multi-family buildings and structures shall be of a traditional New England design to be compatible with the predominant scale and character of the existing Gorham Village architecture.
