The item has been suggested for review by staff and is being submitted by Councilor Hartwell.

**Item #2021-9-12**

**Action to consider adopting a remote and hybrid meeting policy. (Councilor Pratt Spon.)**

During the height of the pandemic a state of emergency existed that allowed municipalities the ability to meet remotely. 30 days after the end of the state of emergency, that ability to meet remotely ended; however, the state legislature put forward a new law that allows for the continuation of remote or hybrid meetings with some new conditions. The first major hurdle is that a board or committee must adopt a formal policy.

What the policy allows the Council to do for quorum meetings:

- Through the Chair, and with consultation of the Town Manager, declare that an emergency exists that would allow for a remote or hybrid meeting to take place.
- The definition of emergency is fairly broad and items like storms, the need for a quorum, pandemic transmission levels, etc. would easily qualify to meet remotely.
- If the Council meets remotely or through a hybrid form, the same level of participation for the Councilors must also be made open to the public. i.e. – remote meeting via zoom must also allow for remote public participation, etc.

The policy was drafted by legal counsel based on general guidance given by staff from the Council's past practices during the height of the COVID-19 pandemic. If the Council wishes to have a significant departure from this policy, staff recommends that it goes back to legal counsel for further amendments and/or review.

Thank you and this will suffice for the landscape plan for the Marijuana License.

Hi Carolyn,

Bellow is a sketch of the property.

1. Directly in front of the warehouse is crushed stone.
  2. Along the side with the dirt drive way is sand and dirt.
  3. In front towards the road there a large section of grass
  4. Along the back there is grass.
  5. Trees make up the property line towards the front (roadside) of the warehouse.
- View Point landscaping maintains all grass areas, all sides of the building to prevent over growth, and winter plowing.

Please let me know if there is anything else you would like me to include.

Thanks  
Rob
