**Chapter II:, SECTION III – SIGNS, Subsection E. Performance Standards :**

13) Farm Stand Directional Signs: Farms which sell produce at the site where that produce is grown are eligible for farm stand directional signs. The provision allows for a maximum of 4 signs to be installed within a 5 mile radius of the farm. The signs may not exceed 8 square feet, must be directional in nature, and must advertise only the agricultural product available for immediate purchase. Signs must be placed so they do not block sight distance for any road intersections or driveways and are not a traffic hazard. The signs cannot be illuminated by any means and must be removed once the agricultural produce advertised on the sign is no longer available.

A sign permit is required prior to placement of any Farm Stand Directional Signs. The sign permit shall include a description and picture of the signs being installed and a map which shows the locations for all signs being installed and the distances from the farm. The sign permit shall be renewed annually.

**PLEASE NOTE:**

**Chapter II, Section III, Subsection D. Prohibited Signs, Displays, and Related Materials:**

**n) Sandwichboard Signs: Freestanding signs that meet the definition of a sandwichboard sign are prohibited both within street rights-of-way and on private property.**
